HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling invented by H R Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that have ever been used

It fastens without bolt or screw and is therefore easily and speedily separated It has an Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses It is easily changed so that the shafts or tongue may be detached in an instant and is convenient safe and secure

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases We consider it far superior to the Browster Patent heretofore considered the best in use

Our readers will remember that last Monday's issue of the *Times* contained an account of the [illegible] of the operations of the Mormon [illegible] on Long Island We stated therein that [illegible] with a large force of missionary priests and elders was laboring hard to establish a powerful Mormon branch on the Island and had taken up headquarters at Ladwick near Brooklyn [illegible] There we are assured that his efforts have been crowned with some success A few people have been baptized and [illegible] here [illegible] last of the Latter-day Saints and [illegible] [illegible] which hold their meetings [illegible] a [illegible] has been left [illegible] large [illegible] [illegible] [illegible] [illegible] achieve [illegible] [illegible] and finally to [illegible] possible a record [illegible] General [illegible] now moves on [illegible] where he intends to inaugurate a series of [illegible] the same as those conducted [illegible] at Williamsburg He is accompanied by a large force of preachers whom he will send out to work up a circuit of fifty miles around the town The Mormons in Williamsburg are very sanguine of his success

[illegible] LAW TIMES IN GEORGIA

Augusta Correspondence N Y Times

AUGUSTA Jan 15 The political muddle and the [illegible] are not the only sources of agitation in Georgia at this time The ante-1865 debts are creating very general excitement By a law passed by the State Legislature last year [illegible] incurred prior to June 1865, and not put in suit before the 1st of January, 1870, were declared barred by limitation of time This statute [illegible] became generally known a few days before the close of the year and then such a [illegible] suing and serving writs swearing and filing pleas and hurry-scurrying of creditors, not [illegible] lawyers sheriffs constables clerks and justices of the peace has never been known since [illegible] were first opened to the litigious [illegible] Everybody seems to have sued every body Writs of *assumpsit* are as plentiful as leaves in Vallambrosa and the Justices' Courts are empowered to try civil suits where the sum in suit does not exceed 100 are open day and night, making such rulings it is to be hoped, as "to justice shall appertain" The only class of people who seem thoroughly satisfied with the state of affairs is the lawyers. They [illegible] to be in Elysium and instead of the ordinary salutation on meeting a friend or an acquaintance, they pull out a writ from their side pocket, and say, "Will you acknowledge service?" Printers of blank [illegible] declare they were never so busy

U S NAVY

WASHINGTON Jan 30—In compliance with the resolution of the House of Representatives of the 13th inst the Secretary of the Navy has submitted the following list of the [vessels] of the United States Navy the names of which have been changed since the 4th of March, 1869, in order to comply with the act of Congress requiring [illegible] of the first class to be named after [illegible] of the second and third classes after rivers, cities and towns and those of less than third class as the President may direct

First class Vessels changed to Names of States—Neshaminy to Nevada, Ammonoosuc to Iowa, Kewaydin to Pennsylvania, Madawaska to Tennessee Minnetonka to California, Ontario to New York Piscataqua to Delaware, Tamanend to Connecticut Passaconaway to Massachusetts, Quinsigamond to Oregon, Shakamaxon to Nebraska, Wampanoag to Florida.

Second and third class Vessels changed to Names of Rivers, Cities or Towns—Meshoba to Severn, Pushmataha to Congress, Algoma to Benicia, Contoocook to Albany Keosauqua to Plymouth, Manton to Worcester

Ironclad Vessels, less than third class, named by the President's direction—Casco to Hero, Chimo to Piscataqua Kalamazoo to Colossus Kickapoo to Kewaydin Manayunk to Ajax, Naubuc to Minnetonka, Neosho to Osceola, Sangamon to Jason, Shiloh to Iris, Squando to Algoma, Tippecanoe to Wyandotte Tunxis to Otsego, Waxsaw to Niobe Tonawanda to Amphitrite, Agamenticus to Terror

Of this latter class eleven have not been in commission and Congress has authorized their [illegible], as unfit for service

THE WORK OF THE ADMINISTRATION —TOTAL REDUCTION OF EXPENDITURES FOR THE FIRST HALF OF ITS FISCAL YEAR, $27,264,790

From our Regular Correspondent

WASHINGTON Jan. 29—The controversy over the estimates and appropriations, which has been occasioned by Mr Dawes' speech will be apt to lead the public astray from the real test which is to be applied to the Administration of President Grant. The Administration is either to be condemned or vindicated by the manner in which the public money is disbursed The question is not whether estimates and appropriations are larger or smaller now than in previous years During and since the war the system of appropriations has not by any means been any proper measure of the money disbursed. It is not all we [illegible] to go into any detail why they are not, for the reasons are known to every person who will be interested in this statement. But the real and only vital question is Does this Administration actually spend more money or less money than its predecessor? The answer is in the actual official figures of the expenditures of the current fiscal year as compared with the last fiscal year. These figures I am able to give in the aggregate, and it is to such results that the Administration can turn for vindication from all assault, misrepresentation or error come from what source it may No other test is so applicable no other test can subject the Administration and its several Departments to so severe a criticism as to exhibit what it actually does with the money appropriated. Here are the figures:

The aggregate expenditures, exclusive of interest on public debt, for the first quarter of the fiscal year 1869, ending Sept. 30, 1868, under Johnson, were	$66,409,656
For the same quarter in 1869 under Grant, they were	50,490 098
Reduction in 1869	$15,919,581
The aggregate expenditures, exclusive of interest on the public debt, for the second quarter of the fiscal year 1869, ending Dec 31, 1868, under Johnson, were	$[illegible],[illegible],436
For the same quarter in 1869 under Grant, they were.	65,763,959
Reduction in 1869	$9,325,482
The total interest on public debt for the first half of fiscal year 1869, from July 1 to Dec. 31 1868 was	$64,971,125
For the first half of the current fiscal year, from July 1 to Dec 31, 1869 was.	62,951,790
Reduction in 1869	$2,019,347

The total reduction of expenditures, therefore, was for the first half of Grant's fiscal year, as compared with the first half Johnson's last fiscal year as follows

In first quarter	$15 919,564
In second quarter	9 325 481
On interest [illegible] quarters	2 019 47
Total net reduction for the first half of Grant's first fiscal year	$27 264,790

These figures are correct The official statement for the second quarter of 1869 which will be public in a few days will completely sustain them If we should go back still further and embrace the first quarter of Grant's Administration to wit from April 1 to June 30 1869, the comparison will be still more favorable. But for exceptionable reasons it would not be so fair a test as to take the first half of the current fiscal year

INCREASE IN RECEIPTS

[illegible] must be remembered is the reduction of expenditures alone But if the increase in receipts be taken into consideration the record of the Administration grows still brighter I have [illegible] the figures at hand to night but I give the approximate gain for the six months stated with the assurance that the sum will exceed rather than fall short of the aggregate below

Net gain from Customs July 1 to Dec 31 1869	$4 000 000
Net gain from internal revenue same time	16 000 000
Net gain from miscellaneous sources	2 972,000
Net gain in receipts	23 872,000
Net reduction of expenditures	27 264 790
Total gain first half of Grant s first fiscal year	$51 136 790

I submit that this is a sufficient indication if any is needed of the work of the Administration [illegible] beyond all cavil that so far as it has gone it has been true to all its pledges By what has been done it has to be judged Let Congress do its part and the Administration will meet it more than half way

They have sharp Democratic politicians in Kentucky The 15th amendment providing that the right of citizens of the United States to vote shall not be denied or abridged by any State, on account of race, color or previous condition of servitude, a Democratic genius has studied out, without regard to the wear and tear of intellect, a plan by which the negroes can be disfranchised He advises the Legislature to enact a law providing that "no person shall be elector in the Commonwealth who has wool or kinky hair on his scalp" That chap ought to be sent for by the Laboring Lawyers Association of this city He would be a treasure to them

No better commentary could be made on the ruinous tendency of the Democratic doctrine of repudiation, than is contained in the fact that upon each of the two late discussions in Congress on that subject, American securities have immediately depreciated in Europe Though an insignificant minority in Congress and among the people at large, the repudiationists are able to do our national credit great injury abroad. National honor, like the polished surface of steel, may be tarnished by a breath, Mungen and Golladay will have the satisfaction of knowing that, pigmies as they are, they have laid additional burdens upon the people by the damage they have done to the national credit

A comparative statement of the revenue collections for the fiscal years 1869 and 1870 makes the following showing First quarter of 1869, $40,651,331 91, first quarter of 1870, $49,616,335 62; gain in favor of 1870, the first year of Grant's administration, $8,964,503 71 The gain for the second quarter, was $7,002,244 07 The gain in January, 1870, the first month of the third quarter, was $1,351,253 72 Total gain in seven months, $17,318,004 50. These gains are shown by certificates of deposit received at the office of Internal Revenue Taken in connection with the decreased expenditures which are shown by equally undeniable figures, the record is a most flattering one in favor of Grant's administration

SNOW SLIDE AND TWO MEN BURIED UNDER IT—THE [illegible] MINES

[From the Idaho World, Feb 10

A fearful report has reached us by which it is probable that two men have perished in the snow Mr J J Tompkins of Idaho City received a letter from the [illegible] last stating that Mr Wentworth, of Kapp & Co's Loon Creek Express and a man named Smith had left Idaho City on snow shoes with the Express for Loon Creek and that serious fears were entertained for their safety It appears that Shepherd's Expressman who started afterwards passed the two men on the Payette where they intended to build a cabin in which to stay when passing and repassing that way Upon returning he observed that an immense snow slide had occurred at the [illegible] place, which is supposed to have buried the two unfortunates beneath its frightful mass, as their tracks were seen going in the direction of the spot covered by the slide, with no signs of having [illegible] away. At last accounts a large party had gone out from Idaho City to endeavor if possible to find some trace of the missing men

A correspondent from Warren's Diggings say that the miners at that place have concluded to permit Chinamen to work the old placers next season That will give employment to 1 000 Chinamen Weather mild and the miners are busy stripping top and drifting out pay dirt in readiness for the spring work. More freight was offered yesterday than the [illegible] steamer was able to carry Just at this season a sufficient amount of shipping to that direction is done to employ two vessels

It is reported that the United States Marshal has seized the steamer *Mary Bell* and tied her up on a legal process to enforce the collection of claims against her She is lying at her wharf in this city

Over five thousand bushels of wheat were received from the upper Wallamet yesterday by steamboat

[illegible] hundred tons of freight, consisting chiefly of wheat flour and meat are now lying on the wharf of the P T Company in this city

Altogether over 6 500 tons of Oregon produce have been shipped from this port since the first of January

Yesterday the weather in this vicinity was clear [illegible] the forenoon Towards evening the sky became hazy and some indications of snow appeared

The *Helfer* has now nearly all her freight discharged and will commence receiving a return cargo for San Francisco to-day.

B D Smith is preparing to erect a handsome residence on the corner of Fourth and Morrison streets The foundation is being laid

Another meeting of the carpenters of the city will be held at the Temperance Library rooms on Front street next Wednesday evening.

UNDER THE GASLIGHT.—A full [illegible] Oro Fino Theater last night to witness the rendition of this thrilling drama. We [illegible] intend no flattery in saying that the startling incidents of this play were brought out in excellent style, and no single member of the company fail'd, to any serious extent, in carrying out well the designated character in such a way as to [illegible] and in many cases, thrilling to the audience, who received them with frequent bursts of applause The scenery is well constructed and arranged, and forms one of the very interesting features of the play. A repetition of the piece will be given this evening, and being the last opportunity for seeing which our citizens will have during the season, we expect that the house will be filled

LANDS RESERVED —By reference to a notice given by Hon Owen Wade, Register of the Land Office at Oregon City it will be seen that the odd numbered sections of land between Portland and Jefferson, not otherwise held, have been withdrawn from [illegible] under instructions from the Secretary of the Interior, as enuring to the Oregon Central Railroad. The lands withdrawn lie within the prescribed limits of 20 and 30 miles of the road We call the attention of those intending to settle on public land to the notice.

AT THE DALLES —To those who are traveling in the direction of the Dalles, we take pleasure in recommending the Umatilla House, kept by Messrs Handley and Sinnott, as an excellent place to obtain accommodations. These gentlemen have a commodious house, well furnished, and are sparing no pains to make their place second to none in Oregon Several years of [illegible] in the business demonstrates the fact that they know just "how to keep a hotel."

TO CONTRACTORS —The Committee on [illegible] and Public Property have advertised for bids to be received at the office of the City Auditor until next Wednesday at noon for the contract to build a fence on each side of Main street through the plaza, also for grading that portion of the public grounds lying between the center of F and G, North East Park and North West Park at [illegible]

The Fur Trade of the Past Year

In reviewing the Fur Trade of the past year Mr Moncet M Beck says

Fancy Furs for the season [illegible] among the most [illegible] for the [illegible] pursued in our Eastern States The sale of them generally [illegible] the last summer and met a the outset with a [illegible] of the part of [illegible] buyers [illegible] consuming districts The [illegible] of new materials and new styles and the maintenance of high values by the holders of anything desirable [illegible] raw skins [illegible] the supply [illegible] the demand must be sold cheap Furs [illegible] were subsequently forced up on an unwilling market at ruinous sacrifices Fine goods alone where the manufacturer had been regardful of intrinsic value in the material and still more regardful of the caprices, style and taste of the day commanded their full value Such goods never have been and never will be offered regardless of cost With this exception however the season's business has been unhealthy fickle and spiritless and no sufficient outlet has been found for the limited though steady production of our furriers

The results of the past year show that black goods have seen their best days that pelerines and collars are a good deal more than half dead and that pale and coarse mink are confessedly defunct With the sour [illegible] and the trick red color on him the mink has had a hopeless task to keep himself in fashion Those Western skins with their coarse [illegible] breaking under even careful usage and [illegible] an indescribable but detestable [illegible] one or two seasons wear have finally retired from the list of choice and fashionable Furs The mink ranks among royal furs only where he can show blood in every vein and can establish his clear claim to it in every hair and with these titles, and these evidences of rare beauty he will everywhere and always be admired and sought after equally with the Sable and Ermine

We have hardly a parting word for a New Madrid, or an Iowa, or an Illinois mink It is said it is still in honor in its own country and buyers are said to be even now jostling one another to be ahead in its purchase

The Russian and Asiatic lamb skin in all varieties has met with an extensive sale in sacques muffs and boas Along with them was used the Angora goat skin in all its several hues for trimmings tassels and fringes From over production the price of the garments were steadily reduced until it became ridiculously low There seemed to spring up an eager haste on the part of some manufacturers to create the article in quantity and cheapen them in quality The Astrakhan goods promise to be in fair demand another season but an over supply of them will necessarily be attended with serious sacrifice

Round muffs of medium size and straight boas varying from one and a half to two yards in length, have been the most saleable styles in all Furs for the Atlantic cities This has been exclusively the case for Russian sable Hudson Bay marten, and ermine The first two named Furs have maintained their prices to the close of the season, but the ermine yielded essentially in price because they had been purchased at too enormous an advance at the Irbit fair

The lustred Fur seal has been steadily growing in favor and is most extensively called for in sacques muffs boas scarfs gloves, caps and turbans Its elegance and durability make it very suitable for these articles, as well as for the garniture of cloth and velvet robes Trimmings of Fur are in general request and for this purpose all the various qualities, kinds and colors are employed, according to the taste of the wearer

Fitch and Siberian squirrel have found but a light demand at low prices The squirrel in particular must take a lower value in future or else be consumed in Europe The people are tired of its dull and sombre hue, and especially so when they have discovered that all the beauty it does possess, is the result of a cheap daub upon a pale-backed, read headed lensky skin Fine raccoon backs will sell to a moderate extent at a moderate price Natural muskrat and brown coney, in the old style of collars and muffs, have struggled manfully all the season with each other to see which could sell itself at the lowest, and at the close each found it hard work to give itself away Lustred muskrat had a somewhat better fate, and proved remunerative to the manufacturer

Beaver and otter in collars, caps and gloves have been amongst the most unseasonable of Furs, and large quantities of them will have to be carried over to another season It is to be hoped that a European demand may spring up and take from us the entire collection of these skins for the coming year

Buffalo robes opened at a high value and being in short stock and few hands have kept their price to the close They are falling into disuse on the Atlantic coast and it is not easy to see why they should meet with favor here any more than in Europe They can stand any amount of rude usage, but they are so ugly and incurably dirty, that they are no longer used, where anything better can be afforded

Wolf raccoon, bear and beaver have been the chief materials for fine fancy robes Hudson's Bay and Northwest wolves have had the chief demand, but the Kansas wolf skin, a coarse, rusty cousin of the other, and held at a high price, has met with studied neglect

Shipping furs of every description must take a lower value In Europe as well as in America, it is no longer easy to find a responsible customer at the tall prices current of late years Musk rats have already declined twenty per cent in the foreign market Beaver in every grade but the finest, has experienced the same reduction Pale mink and raccoon will find no better, if not a worse reception Black bear, skunk, fisher and red fox will struggle in vain against the general tendency Silver and gray fox, lynx, wild cat and badger, have long since resigned themselves to a low price and sluggish demand, and the opossum has now, for a whole year, been content to vibrate between five cents and zero"

Some of the French papers are publishing a series of anecdotes about the Emperor We hear of Napoleon tossing halfpence to vagrant children, restoring a schoolboy's velocipede to its equilibrium, ransacking the Imperial larder at Compeigne late at night for his famished guests, and joining in the gayeties of the St. Cloud Fair This kind of writing ought to popularize His Majesty with the French people

The Prince of Prussia has lately visited Palestine *Judy* says that he made a point of going to Jericho, and expresses the charitable wish that several other foreign potentates would follow him

No bobbins to wind on the GROVER & BAKER —It is the only Sewing Machine which sews direct from two spools Wm CONNELL & Co, Agents.

RAILROAD MATTERS are very likely to be lively this spring The East Side Company will engage a large force of men to complete their road to Albany and the West Side Company will very probably build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville Kohn & Fishel are keeping up with railroad times Their stock of spring goods coming across the continent by rail will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals They are manufacturing the neatest Boys Suits and always have on hand a large stock of the same which are offered at lowest figures

VALUABLE —The recent bill before Congress granting aid for the construction of a railroad from the Columbia river to Puget Sound if passed will make the large tracts of coal and timber lands owned by the Puget Sound Homestead Association on the Skookum Chuck and Newaukum very valuable

A few shares only remain untaken and can be had at the office of the Secretary of Mr Conklin Canvassing Agent

It matters not how hard it rains or how gloomy the day is those beautiful Diamonds Garnets Moss Agates and other precious stones set in fine burnished gold at B L Stone's gleam and sparkle with rare beauty And the darker the day and the duller the times the cheaper [illegible]

The Season and its Dangers.

The human body is chiefly composed of tissues and fibres as sensitive to every change in the condition of the atmosphere as the most delicate electronometer or the quicksilver in a barometer tube

The stomach the skin, the nerves the lungs, and the excretory organs are especially liable to be affected by these variations and the best defence against their disastrous tendency is to keep the digestive machinery which feeds and nourishes the whole system in good working order.

If the stomach is weak or disordered neither the blood nor the bile can be in a healthy state, and for the fitness of these two important fluids for the offices assigned to them by nature and the regularity of their flow, health in a great measure depends

When the air is heavily laden with chilling humid vapors, digestion should be an object of peculiar care If it is weak and languid, the whole physical structure will be enervated If it is vigorous the entire organization will be strong to resist the unteward and depressing influence of a damp and vitiated atmosphere.

A pure and powerful tonic is therefore especially needed as a safeguard against the diseases most common in the wet season and Hostetter's Stomach Bitters being the most wholesome and potent medicine of the class at present known a course of it is particularly advisable at this time

The stomach will thereby be toned and strengthened the liver and bowels regulated, the nervous system braced up and nature put in a state of active defence against the miasma which superinduces intermittent and remittent fevers rheumatism nervous debility headache hypochondria and other complaints which are apt to assail the untoned and unfortified organizations The body is strengthened without exciting the brain and consequently no unpleasant reaction follows its reviving and renovating operation

Editorial Notes

A new Democratic club called the Blos soms has been organized in New York We presume that it is so named on account of some nasal peculiarities of its members blossomed noses and that like the Demo cratic Workingmen's Association of Portland the regular meetings are held in Nasby's back room

Mr Bl na [illegible] Washington Terri tory one of the bolters who tried to defeat Mr Garfielde last summer has quit the lum ber trade, says the *Age* and gone into the col porteur line His chief mission seems to be the dissemination of yellow covered literature entitled Don't vote for Garfielde or you'll be damned

The Washington correspondent of the Olympia [illegible] writing about Flanders Jan 10th says "Governor Flanders a few days since repaired to the White House and sent in his card, soliciting an audience with the Chief Magistrate The President glanced over the pasteboard, and in an instant ex claimed to the epauletted messenger a gen eral I decline to grant Mr Flanders an in terview Tell him to make known his wants in writing" It would seem that this 'dead lion of Washington Territory did not roar loud enough to frighten the President much He is a [illegible] lion

They have sharp Democratic politicians in Kentucky The 15th amendment providing that "the right of citizens of the United States to vote shall not be denied or abridged by any State on account of race, color or previous condition of servitude, a Democratic genius has studied out, without regard to the wear and tear of intellect, a plan by which the ne groes can be disfranchised He advises the Legislature to enact a law providing that 'no person shall be elector in the Commonwealth who has wool or kinky hair on his scalp" That chap ought to be sent for by the Labor ing Lawyers' Association of this city He would be a treasure to them

No better commentary could be made on the ruinous tendency of the Democratic doctrine of repudiation, than is contained in the fact that upon each of the two late discussions in Congress on that subject, American securi ties have immediately depreciated in Europe Though an insignificant minority in Congress and among the people at large, the repudia tionists are able to do our national credit great injury abroad National honor, like the polished surface of steel, may be tarnished by a breath, Munger and Golladay will have the satisfaction of knowing that, pigmies as they are, they have laid additional burdens upon the people by the damage they have done to the national credit

A comparative statement of the revenue col lections for the fiscal years 1869 and 1870 makes the following showing First quarter of 1869, $40 651 831 91, first quarter of 1870, $49 616,335 62; gain in favor of 1870, the first year of Grant's administration, $8,964 503 71 The gain for the second quarter, was $7,002 - 244 07 The gain in January, 1870, the first month of the third quarter, was $1,351,253 72 Total gain in seven months, $17,318,004 50 These gains are shown by certificates of deposit received at the office of Internal Revenue Taken in connection with the de creased expenditures which are shown by equally undeniable figures, the record is a most flattering one in favor of Grant's admin istration

A Roman wit has discovered the habits of all the Western Bishops at the Ecumenical The English are always taking out something to eat the American Bishops are retiring to smoke, the French Bishops are passing about and taking the Spanish Bishops are in little groups talking their own politics, the Germans are silent and do ing nothing The Italians, if we may conclude from the example of the wit himself are making their observations

European socialism has found an unexpected development in Russia A number of students in Moscow St Petersburg and other towns appear to have formed a so called national tribunal whose modest programme was to 'repeal matri mony property Government and State general ly,' and to establish instead what is called the free and unrestricted commune of the future, with a perfect equality of rank, property and privilege' As a preliminary, all possessors of wealth were to be divested of it, all Government officials knocked on the head and all [illegible] who should [illegible] of things [illegible] by having their [illegible] This humane school of reform ers was betrayed by one of its members and a hundred or so of its philosophic adherents have been sent to study society under a new aspect in the mines of Siberia

IDAHO

SNOW SLIDE AND TWO MEN BURIED UNDER IT—THE NORTHERN MINES

[From the Tidal Wave Feb 10]

A fearful report has reached us by which it is probable that two men have perished in the snow Mr J J Tompkins of Idaho City received a letter from the [illegible] night before last stating that Mr Wentworth of Kapp & Co's Long Creek Express and a man named Smith had left Idaho City on snow shoes with the Express for Long Creek and that serious fears were entertained for their safety It appears that Shepherd's Ex pressman who started afterwards passed the two men on the Payette where they intended to build a cabin in which to stay when passing and re passing that way Upon returning he observed that an immense snow slide had occurred at the identical place which is supposed to have buried the two unfortunates beneath its frightful mass, as their tracks were seen going in the direction of the spot covered by the slide, with no signs of having [illegible] away At last accounts a large party had gone out from Idaho City to endeavor if possible to find some trace of the missing men

A correspondent from Warren's Diggings say that the miners at that place have concluded to permit Chinamen to work the old placers next season That will give employment to 1 000 Chinamen Weather mild and the miners are busy stripping top and drifting out pay dirt in readiness for the spring work Trade and every thing looks [illegible] in North Idaho

BRIEF ITEMS — A few hundred boxes of apples would command a better price in this market than they have been bringing lately

About 400 tons of Oregon produce were shipped to the Sound country by the [illegible]

The new locomotive Oregon was taken to the machine shop of the east side railroad company yesterday to be put in running order

We noticed yesterday on First street a couple of chairs constructed in a very unique style out of the native Oregon laurel The ingenuity displayed in their construction is certainly great and as specimens of Oregon growth and workmanship they would be quite a curiosity in other countries

More freight was offered yesterday than the Victoria steamer was able to carry Just at this season a sufficient amount of shipping in that direction is due to employ two vessels

It is reported that the United States Marshal has seized the steamer *Mary Bell* and tied her up on a legal process to enforce the collection of claims against her She is lying at her wharf in this city

The Fur Trade of the Past Year

In [illegible] the past year Mr Mar [illegible] er M Back [illegible]

[illegible] he sale of the [illegible] Three-[illegible] satin [illegible] new styles and be [illegible] the hold [illegible] The [illegible] Furs [illegible] equally [illegible] market at ruinous sacrifices [illegible] where the manufacture had been regardful of intrinsic value [illegible] the full value Such goods never have been and never will be offered regardless of [illegible] With [illegible] exception however the season s business has been unhealthy fickle and profitless and [illegible] sufficient outlet has been found for the limited though steady production of our furriers

The results of the past year show that black goods have seen their last days that peler[illegible] and collars are a good deal more than half dead and that [illegible] defunct With the [illegible] has had a hopeless task to keep himself in fashion [illegible] with their coarse [illegible] careful usage and [illegible] but detestable [illegible] seasons wear have finally retired from the list of choice and fashionable Furs The mink ranks among royal furs only where he can show the blood in every vein and can establish his [illegible] in every hair and with these titles and those evidences of rare beauty be will be everywhere and always be admired and sought after equally with the Sable and Ermine

We have hardly a parting word for a New Madrid or an Iowa, or an Illinois mink It is said it is still in honor in its own country and buyers are said to be even now jostling each other to be ahead in its purchase

The Russian and Asiatic lamb skin in all varieties has met with an extensive sale in [illegible] muffs and boas Along with them was used the Angora goat skin in all its several hues for trimmings [illegible] There seemed to spring up an eager haste on the part of some manufacturers to create the article in quantity and cheapen them in quality The Astrakhan has good [illegible] at [illegible] demand and other season but an over supply of them will necessarily be attended with serious sacrifice

Robes and muffs of medium size and straight boas varying from one and a half to two yards in length have been the most saleable styles in all Furs for the Atlantic cities This has been exclusively the case for Russian sable Hudson Bay marten, and ermine The first two named Furs have maintained their price to the close of the season but the ermine yielded essentially in price because they had been purchased at too extreme an advance at the Irbit fair

The lustred Fur seal has been steadily growing in favor and is most extensively [illegible] for [illegible] muffs boas scarfs gloves caps and turbans Its elegance and durability make it very suitable for these articles as well as for the garniture of cloth and velvet robes Trimmings of Fur are in general request and for this purpose all the various qualities, kinds and colors are employed, according to the taste of the wearer

Fitch and Siberian squirrel have found but a light demand at low prices The squirrel in particular must take a lower value in future, or else be consumed in Europe The people are tired of its dull and sombre hue, and especially so when they have discovered that all the beauty it does possess is the result of a cheap daub upon a pale-backed read beaded lensky skin Fine saccamony backs will tell at a moderate extent at a moderate price Natural muskrat and brown coney, in the old style of collars and muffs, have struggled manfully all the season with each other to see which could sell itself at the lowest, and at the close each found it hard work to give itself away Lustred muskrat had a somewhat better fate and proved remunerative to the manufacturer

Beaver and otter in collars, caps and gloves have been amongst the most unseasonable of Furs and large quantities of them will have to be carried over to another season It is to be hoped that a European demand may spring up and take from us the entire collection of these skins for the coming year

Buffalo robes opened at a high value and being in short stock and few hands have kept their price to the close They are falling into disuse on the Atlantic coast and it is not easy to see why they should meet with favor here any more than in Europe They can stand any amount of rude usage, but they are so ugly and incurably dirty, that they are no longer used, where any thing better can be afforded

Wolf raccoon bear and beaver have been the chief materials for fine fancy robes Hudson's Bay and Northwest wolves have had the chief demand, but the Kansas wolf skin, a coarse rusty cousin of the other and held at a high price has met with studied neglect

Shipping furs of every description must take a lower value In Europe as well as in America, it is no longer easy to find a responsible customer at the tall prices current of late years Musk rats have already declined twenty per cent in the foreign market Beaver in every grade but the finest has experienced the same reduction Pale mink and raccoon will find no better, if not a worse reception Black bear, skunk fisher and red fox will struggle in vain against the general tendency Silver and gray fox, lynx, wild cat and badger have long since resigned themselves to a low price and sluggish demand; and the opossum has now for a whole year, been content to vibrate between five cents and zero "

Some of the French papers are publishing a series of anecdotes about the Emperor We hear of Napoleon tossing halfpence to vagrant children, restoring a schoolboy s velocipede to its equilibrium ransacking the Imperial larder at Compeigne late at night for his famished guests and joining in the gayeties of the St Cloud Fair This kind of writing ought to popularize His Majesty with the French people

RAILROAD MATTERS are very likely to be lively this spring The East Side Company will engage a large force of men to complete their road to Albany and the West Side Company will very probably build a portion of their road in order to obtain a land grant [illegible] facilitate the building of their line to McMinnville Kohn & Fishel [illegible] keeping up with railroad times Their stock of spring goods [illegible] the largest and finest stock [illegible] ever imported to this State Their stock in store now is [illegible] very low to make room for large arrivals They [illegible] manufacturing the neatest Boys Suits and always have on hand a large stock of the same which are offered at lowest figures

The Season and its Dangers.

The human body is chiefly composed of tissues and fibres as sensitive to every change in the condition of the atmosphere as the most delicate electrometer or the quicksilver in a barometer tube

The stomach, the skin the nerves the lungs, and the excretory organs are especially liable to be affected by these variations and the best defence against their disastrous tendency is to keep the digestive machinery which feeds and nourishes the whole system in good working order

If the stomach is weak or disordered [illegible] the blood nor the bile can be in a healthy state and for the fitness of these two important fluids for the offices assigned to them by nature and the regularity of their flow health in a great measure depends

When the air is heavily laden with chilling humid vapors digestion should be an object of peculiar care If it is weak and languid the whole physical structure will be enervated If it is vigorous the entire organization will be strong to resist the untoward and depressing influence of a damp and vitiated atmosphere.

A pure and powerful tonic is therefore especially needed as a safeguard against the diseases most common in the wet season and Hostetter s Stomach Bitters being the most wholesome and potent medicine of the class at present known a course of it is particularly advisable at this time

The stomach will thereby be toned and strengthened the liver and bowels regulated the nervous system braced up and in turn put in a state of active defence against the miasma which engenders intermittent and remittent fevers rheumatism nervous debility headache hypochondria and other complaints which are apt to assail the untoned and unfortified organization The body is strengthened without exciting the brain and consequently no unpleasant reaction follows its reviving and renovating operation

TERRIBLE FATE OF A MISER The following is the full account of the recent horror of Long Swamp reported in the New York *Press* of January 17th

The true name of the man was Frederick Stand He had lived at Long Swamp about six years and is supposed to have brought with him as well as amassed since coming here, considerable money It has been ascertained from a person with whom he was more intimate than with most of his neighbors that he came from Germany, was born in Reutlingen Wurtemburg and that the only relative living is a sister Mena Staudtasche a teacher in Metzingen a town near Reutlingen About 4 o'clock in the morning, Hatt H Smith a near neighbor of Stand discovered fire issuing from the house of the latter, and arousing some neighbors he hastened to the scene of the conflagration Upon his arrival he found fire issuing from the windows and also from the roof and the fire evidently under such headway that there was no chance of saving either the building or its contents At this time the heat was so intense that none of the neighbors who had then arrived could approach near the building, but by the aid of some rails and the fence one of the neighbors managed to elevate himself sufficiently to look into the bedroom window of the unfortunate recluse There a horrible sight met his gaze, for the body was at full length on the floor, a burnt and burning crisp As soon as the fire had abated, Smith, Carr and others managed to get the body from the ruins It was but a trunk as his head, legs and arms had been consumed At the inquest, nothing as to the origin of the fire was discovered and jury found that the fire had been caused by means of a defective flue Some of the neighbors think that the house was set on fire by thieves, after robbing and perhaps murdering Stand

THE OUTWARD TESTS OF CHARACTER —There is a physiognomy in the human back, the wave of the rim of a hat, the height of a shirt collar, by which a man may be recognized quite as well as by his beaming face The ignoring of the familiar truth for a purpose was singularly illustrated in the Rush trial, when the endeavor was made to shake the maid servant's indentification of that murderer, because she had only seen his back Yet we do not remember that the learned Judge or anybody else asked the jury to consider whether, in their daily experience, they were accustomed to know people by their faces To know such a man's walk, the shape of such another man's back, etc, seems to belong to a specially acute and Indian like instinct, while sailors, in refutation of that meagre sense, which excuses some failure of recognition by such a pretence as "I could not see his face," talk airily, and with a metaphor drawn from their own profession, of knowing some unfamiliar figure "by the cut of his jib." These loose expressions all point to a deeper principle; to the curious marks which the interior soul leaves behind it, whenever it comes in contact with earthy matter, or earthy manners and modes. It all comes under the head of style, which we have been told, 'makes the man' Tell us a particular style, and we shall know the man. And in dearth of all other helps and tokens show us a man's trunk, and we may be pretty sure as to what he is.—*All the Year Round*

CRAWLED UP —Once upon a time a gentleman found in his henroost a simple-minded soul in the vicinity, who lived without visible means of support:

"What are you doing here, you rascal? stealing my chickens?"

"No, sir," was the response, "I ain't thought of doin' nothin' of the sort."

It unfortunately happpened that the simple-minded individual wore a high straw hat, of the dimensions of a beehive, and the crown thereof was dilapidated to a serious extent Just as he had put in his denial, the head of a half-grown pullet was seen to protrude from the aperture.

"See here," said the gentleman, "how did the chicked get in your hat?"

"Well!" exclaimed the simple-minded individual, with an air of honest surprise and embarrassment, "that is the strangest thing that ever happened to me, I suppose the darned critter must must have crawled up my trousers leg!"

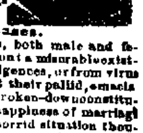
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz Sallow countenance dark spots under the eyes, pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs confused vision, blunted intellect, loss of confidence diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath coughs consumption, night sweats monomania and frequent insanity If relief be not obtained should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay obtain immediate relief

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity, to any part of the country with full and plain directions for use for Ten Dollars, sent in registered letter or through Wells, Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus [illegible] certificates [illegible] the unwary Some of these self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and be one too lazy to work at their trade [illegible] more are those [illegible] makers newspaper carriers intelligence office keepers etc Look over the San Francisco Directory and you will not find their Medical Institutes in it but you will find their former occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry it will cost you nothing, and may save you many regrets for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them unless you know who and what they are Dr Gibbon does not deceive people by exhibiting bogus titles [illegible] patient's letters etc Dr Gibbon will satisfy [illegible] may call at his office of his ability to treat diseases that he proposes to cure

Address DR J F GIBBON 623 Kearney street corner Commercial (Private Entrance on Commercial) San Francisco Post Office Box 952

What the Hon W T Ballou says of the King of Pain

SAN FRANCISCO Dec 7 1869

Dr J J McBride—Having suffered with sciatic rheumatism some months I was induced to use your King of Pain I take pleasure in recommending it to those afflicted with rheumatism I know of several cases of neuralgia that have been cured by using it

W T BALLOU of Elko Nevada

Card from Harbor Master

SAN FRANCISCO, Dec 2, 1869

To Dr McBride—This is to certify that I have been troubled with neuralgia in my right arm and hand for the past three months and although I have had medical advice and tried a number of remedies none has relieved me until I tried Dr McBride's King of Pain which has done me more good than all the other remedies I have tried

JAMES B HOUSEMAN

THE GREAT KING OF PAIN.

HODGE, CALEF & CO.,

WHOLESALE AGENTS for OREGON,

DR. J. J. M'BRIDE,

TELLS YOUR DISEASE WITHOUT ASKING ANY QUESTIONS!

A CARD.

SAN FRANCISCO Oct 16, 1869

DR MCBRIDE—My Dear Sir For the last six or seven years I have been afflicted with rheumatic pains from my knees down, embracing all the joints of ankle and toes These pains have come upon me periodically every year about this season of the year My knees and ankles and toe joints, and my wrists and finger joints would swell and leave me in the most agonizing pain, known only to those who have suffered from this dread malady These pains would continue for a period of from three to four months every year and they have been regular, unfailing annual visitors I have been accustomed to apply for relief to the best citizens of San Francisco, and have not failed to use all the popular remedies known to the public I would sometimes receive temporary relief after long continued application but it would never fail to return in a few days with increased severity

About two weeks ago while my pains were upon me I saw you at the corner of one of our streets, and heard what you said about your "King of Pain" I confess that I listened to you with deep distrust, indeed, I may say that I did not believe your statements. "Still," thought I, "it's only a dollar, and I'll patronize the 'humbug' one dollar's worth" I bought a bottle and tried it first on my knee which was fearfully swolen, and from which I suffered very severely The second night I tried it again and my dear Doctor, you can judge of my surprise, ecstacy and delight, altogether when I found on rising the second morning, that my pains were entirely gone, and the swelling entirely disappeared My knee joints were as supple as when I was young I actually danced with delight much to the amusement of my friends, who had been in the habit of regarding me as a decrepid old rheumatic It has now been two weeks, and I have not felt the least symptom of return I believe I am cured and I feel so grateful to you that I offer you this statement, verified by my oath, to be used by you in whatever way you may think proper and I feel it a duty to let others similarly afflicted know where they can find relief

I am yours, very truly, RAPHAEL LOOKAYSE

State of California, city and county of San Francisco On this 16th day of October 1869 personally appeared before me a Justice of the Peace in and for the city and county of San Francisco aforesaid Raphael Lookayse known to me to be the person who signed the foregoing letter and who being by me duly sworn deposes and says the contents thereof are true

TO THE PUBLIC

Grateful for the eminent services of Dr J J McBride I cheerfully make a statement of the following facts For twelve months I had suffered from prostration of my nervous system resulting in partial paralysis and almost total loss of sight A score of physicians had abandoned my case as hopelessly incurable I had ever heard my days numbered by doctors and friends In the agonies of my neuralgic pain I sought the great King of Pain Under that benign influence in one half hour I had obtained more medical aid than I had known for long, weary months My sight was so much restored that I could read print although I had needed a guide to find Dr McBride's office an hour before Before leaving him I had regained the use of my almost palsied limbs and seemingly my strength had returned while all those aches and pains my constant companions were dissipated and gone It is now ten days since I underwent treatment with Dr McBride and I can say unhesitatingly that I am restored as I could not have expected I have been [illegible]
